PLATA LATINA MINERALS CORPORATION

Management's Discussion and Analysis

For the Year ended December 31, 2022

INTRODUCTION

This management's discussion and analysis ("MD&A") of Plata Latina Minerals Corporation ("Plata" or the "Company") for the year ended December 31, 2022, takes into account information up to and including February 21, 2023, the date of this report. This MD&A should be read in conjunction with the consolidated financial statements (the "financial statements") for the year ended December 31, 2022, prepared in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The financial statements referred to above are available on the Company's website at www.plminerals.com and on the SEDAR website at www.sedar.com.

FORWARD-LOOKING STATEMENTS

This MD&A contains forward-looking information which deals with intentions, beliefs, expectations and future results as they pertain to the Company and the Company's industry. This forward-looking information also includes information regarding the financial condition and business of the Company, as they exist at the date of this MD&A. Forward-looking information is often, but not always, identified by the use of words such as "seeks", "believes", "plans", "expects", "intends", "estimates", "anticipates", "objective", "strategy" and statements that an event or result "may", "will", "should", "could" or "might" occur or be achieved and other similar expressions. This forward-looking information includes, without limitation, information about the Company's opportunities, strategies, competition, expected activities and expenditures as the Company pursues its business plan, the adequacy of the Company's available cash resources and other statements about future events or results. In particular, and without limiting the generality of the foregoing, this MD&A contains forward-looking information concerning the future advance royalty proceeds of up to US \$1,000,000 from Fresnillo PLC in accordance to the terms with respect to its acquisition of the Company's Naranjillo Property and the Company's ability to raise further capital to sustain its operations.

Forward-looking information is information about the future and is inherently uncertain, and actual achievements of the Company or other future events or conditions may differ materially from those reflected in the forward-looking statements due to a variety of risks, uncertainties and other factors, such as business and economic risks and uncertainties, including, without limitation, those referred to under the heading "Risks and Uncertainties." The forward-looking information is based on a number of assumptions, including assumptions regarding general market conditions, the availability of financing for proposed transactions and programs on reasonable terms, the ability of outside service providers to deliver services in a satisfactory and timely manner, prevailing commodity prices and exchange rates and prevailing regulatory, tax and environmental laws and regulations. The Company's forward-looking information is based on the beliefs, expectations and opinions of management of the Company on the date the information is provided. For the reasons set forth above, investors should not place undue reliance on forward-looking information.

The Company undertakes no obligation to reissue or update any forward-looking statements or information as a result of new information or events after the date hereof except as may be required by law. All forward-looking statements and information herein are qualified by this cautionary statement.

This MD&A includes many cautionary statements, including those stated under the heading "Risks and Uncertainties." You should read these cautionary statements as being applicable to all related forward-looking information wherever it appears in this MD&A.

PLATA LATINA MINERALS CORPORATION

Management's Discussion and Analysis

For the Year ended December 31, 2022

DESCRIPTION OF BUSINESS

Plata is a Canadian based resources exploration company and has five wholly owned subsidiaries: Plaminco S.A. de C.V. ("Plaminco"), Minera Central Vaquerias S.A. de C.V. ("MCV"), Minera Exploradora del Centro S.A. de C.V. ("MEC"), Servicio PLMC ("Servicio") and Plata Latina US Ltd. ("Plata US"). On April 11, 2012, Plata began trading on the TSX Venture Exchange under the symbol "PLA".

Plata and its subsidiaries were engaged in mineral exploration, principally in the Mexican Silver Belt in the states of Guanajuato, Jalisco, Aguas Calientes and Hidalgo, Mexico. Through its wholly owned subsidiary, Plaminco, the Company held interests in four Mexican mineral properties – Naranjillo, Vaquerias, Palo Alto and La Joya. In February 2020, the Company sold the Naranjillo Property to a wholly owned subsidiary of Fresnillo PLC ("Fresnillo") and retains a 3% net smelter return royalty in Naranjillo. In mid-2020 the Company submitted termination paperwork for its remaining three properties. During the year ended December 31, 2022, a company expressed an interest in acquiring the mineral claim held by La Joya. As a result, Plata started the process of recalling the termination application on La Joya. The Company continues to consider a variety of longer-term strategic alternatives for its business.

YEAR IN REVIEW

Advance Royalty Payments on the Naranjillo Property

In February 2017, the Company entered into an option agreement with respect to its Naranjillo Property with Fresnillo. During the three-year option period, Fresnillo fulfilled its commitments under the option agreement in cash payments of US \$1,650,000 and in exploration expenditures of US \$3,000,000. In February 2020, Fresnillo exercised the option to purchase Naranjillo for US \$500,000 and granted the Company a 3% net smelter return royalty.

Under the terms of the option agreement, in February 2021, Fresnillo started making an annual advance royalty payment of US \$100,000 until the earlier of (i) US \$1,000,000 of advance royalty payments have been paid, or (ii) Naranjillo commences commercial production of minerals.

In 2022 and 2021, the Company received from Fresnillo an advance royalty payment of \$126,110 (US \$100,000) and \$129,198 (US \$100,000) respectively.

Going Concern with respect to the Company's Operations

The Company's continued operations are supported primarily from the annual advance royalty payment of Fresnillo from the sale of its Naranjillo property. There is no assurance that there will be no interruption of the future advance royalty payment from Fresnillo. The Company has implemented cost control measures to conserve its cash resources. From its annual budget and quarterly cash forecast, the Company has evaluated that it has sufficient liquidity for its current operations for the next twelve months. However, the Company may require additional funding if there are changes to current operational circumstances or Fresnillo's payment streams. The rising interest rate to control record high inflation has increased costs of borrowing and financing. When the need for the Company to raise funding, there are uncertainties to whether financing would be available to the Company and on acceptable terms. These circumstances might cast significant doubt on the Company's liquidity and ability to continue as a going concern.

EXPLORATION AND EVALUATION ASSETS

Naranjillo Property – Acquired by Fresnillo

The Naranjillo Property ("Naranjillo") is situated in Guanajuato, Mexico and consists of three mineral exploration licenses: La Sibila, La Sibila I and La Sibila II, issued by the Mexican General Directorate of Mines ("GDM") in 2011. The three licenses cover 11,482 hectares and are valid for 50 years until 2061.

PLATA LATINA MINERALS CORPORATION

Management's Discussion and Analysis

For the Year ended December 31, 2022

In February 2017, the Company entered into an option agreement with Metalúrgica Reyna S.A. de C.V., a wholly owned subsidiary of Fresnillo PLC ("Fresnillo"). Under the option agreement, Fresnillo was granted the right to explore Naranjillo over a three-year period for a total cash payment of US \$1,650,000 and by spending US \$3,000,000 in exploration expenditures within three years. At December 31, 2019, Fresnillo fulfilled both of its commitments in cash payments and exploration expenditures.

At the end of the three-year option period, Fresnillo had the option to acquire Naranjillo for an additional US \$500,000 and to grant the Company a 3% NSR royalty. Fresnillo would be required to pay advance royalty payments of US \$100,000 annually until the earlier of (a) a maximum of US \$1,000,000 in advance royalty payments have been paid, or (b) Naranjillo commences commercial production of minerals. Fresnillo has the option to reduce the Royalty by 1% by paying an additional US \$1,000,000, and, thereafter, may reduce the remaining 2% Royalty to nil by paying an additional US \$5,000,000.

In February 2020, Fresnillo executed its option to acquire Naranjillo for \$663,950 (US \$500,000) and granted the Company a 3% NSR royalty.

In 2022 and 2021, the Company received from Fresnillo a total of two advance royalty payments, \$126,110 (US \$100,000) and \$129,198 (US \$100,000) respectively.

Vaquerías, Palo Alto and La Joya (the "Three Properties")

The Company holds three other mineral properties in Mexico, *Vaquerías, Palo Alto and La Joya*.

The Three Properties together comprise six mineral concession licenses which are valid until 2060 and 2062. To maintain the licenses in good standing, annual concession fees and land taxes were submitted to the Mexican authority.

In mid-2020, the Company elected not to continue with the required payments of land taxes and concession fees for the Three Properties and submitted paperwork to terminate their mineral licenses.

In the fourth quarter of 2022, a company expressed interest in acquiring the mineral license held under the La Joya property. Consequently, Plata submitted an application to revoke the termination of La Joya.

OUTLOOK

In February 2020, the Company completed the sale of the Naranjillo Property to Fresnillo for a proceed of \$663,950 (US \$500,000). With the acquisition of Naranjillo, starting February 2021, Fresnillo is required to make advance royalty payments of US \$100,000 annually until the earlier of either a total sum of US \$1,000,000 have been paid or Naranjillo commences commercial production of minerals. As of the report date of the MD&A, Fresnillo has made two advance royalty payment totalling \$255,308 (US \$200,000) to the Company. As such, the Company expects that its operating requirements will be met from the cash resources of the sale proceed and future annual advance royalty payments on the Naranjillo Property.

The Company recognizes the challenge of maintaining and funding its grass-roots exploration program in Mexico in the current environment as a result of the global COVID-19 pandemic. While the Company has taken steps to reduce expenses and maintain liquidity in response to the current environment, it had also submitted termination applications for its three properties in mid-2020 to reduce their maintenance costs. In late 2022, a company expressed an interest in acquiring La Joya. Consequently, Plata commenced the process of cancelling the termination of La Joya.

Following the strategic transaction with Fresnillo in February 2020, the Company focuses on conserving its cash resources and seeking new opportunities which could include a transaction that capitalizes on the value of the Company as a clean listed shell.

PLATA LATINA MINERALS CORPORATION

Management's Discussion and Analysis

For the Year ended December 31, 2022

SELECTED ANNUAL INFORMATION

The Company's selected annual information for the years ended December 31, 2022, 2021 and 2020 are as follows:

| | 2022 | 2021 | 2020 |
|----------------------------------|----------|----------|-----------|
| | \$ | \$ | \$ |
| Revenue | 126,110 | 129,198 | - |
| Net loss for the year | (56,598) | (53,951) | (256,824) |
| Basic and diluted loss per share | (0.00) | (0.00) | (0.01) |
| Total assets | 353,867 | 378,529 | 440,019 |
| Total long term liabilities | - | - | - |

SUMMARY OF QUARTERLY RESULTS

The following summarizes the Company's results for the most recently completed eight quarters:

| | 2022 | | | | 2021 | | | |
|---|----------|----------|----------|---------|----------|----------|----------|---------|
| | Dec 31 | Sep 30 | Jun 30 | Mar 31 | Dec 31 | Sep 30 | Jun 30 | Mar 31 |
| | \$ | \$ | \$ | \$ | \$ | \$ | \$ | \$ |
| Revenue | - | - | - | 126,110 | - | - | - | 129,198 |
| (Loss) income for the year | (65,145) | (29,310) | (40,425) | 78,282 | (57,021) | (18,343) | (55,148) | 76,561 |
| Comprehensive (loss) income for the year | (59,486) | (12,893) | (34,916) | 81,155 | (57,157) | (18,550) | (53,287) | 72,192 |
| Basic and diluted (loss) income per share | (0.00) | (0.00) | (0.00) | 0.00 | (0.00) | (0.00) | (0.00) | 0.00 |

In the first quarter of 2022 and 2021, the Company had income of \$78,282 and \$76,561, respectively. After the acquisition of Naranjillo in February 2020, Fresnillo started to make annual advance royalty payment of US \$100,000. As of the date of this report, the Company has received \$255,308 (US \$200,000) from Fresnillo.

Changes in comprehensive income (loss) are mainly related to foreign currency fluctuations on inter-company advances and loans as discussed below under *other comprehensive income (loss)*.

RESULTS OF OPERATIONS

For the three months ended December 31, 2022 and 2021 ("Q4")

Loss for the three months ended December 31, 2022 was \$65,145 versus \$57,021 for 2021 Q4 for an increase of \$8,124. The higher loss in 2022 Q4 was primarily result of foreign exchange loss of \$10,187 from the strengthening of the US dollar and Mexican peso, the functional currencies of Plata's two subsidiaries. The operating expenses for the comparing quarters were maintained consistently with \$54,958 in 2022 Q4 and \$55,209 in 2021 Q4.

For the years ended December 31, 2022 and 2021

For the year ended December 31, 2022, the Company incurred loss of \$56,598 comparing to \$53,951 for 2021.

The Company's operating expenses for fiscal year of 2022 were \$178,956 (2021 - \$178,503) with higher professional fees in 2022 offsetting by reduced costs in salary and office administration. Increased professional fees of 2022 were due to the US taxes filings and consulting on the concession licenses of the mineral properties in Mexico.

PLATA LATINA MINERALS CORPORATION

Management's Discussion and Analysis

For the Year ended December 31, 2022

Administrative expenses in 2022 had been consistent with 2021 as the Company maintained prudent annual budget to conserve its cash resources for new business opportunities.

In fiscal year 2022, the Company received from Fresnillo an advance royalty proceed of \$126,110 (US \$100,000) compared with \$129,198 (US \$100,000) in 2021, with respect to the Naranjillo sale transaction in 2020.

Other Comprehensive Income (Loss) ("OCI")

OCI is in respect with foreign currency revaluations at each reporting date the fluctuations among the Canadian Dollar, Mexican Peso and U.S. Dollar. This foreign currency translation adjustments include the impact of foreign exchange on intercompany loans whose retranslation is treated as equity (until the foreign operation is disposed of) and the translation of the foreign operation from its functional currency to Canadian Dollars. For the year ended December 31, 2022, the impact of the foreign currency translation differences was comprehensive income of \$30,458 (2021 – comprehensive loss of \$2,851).

EXPLORATION AND EVALUATION ASSETS

In February 2020, Plata completed the sale of the Naranjillo Property to Fresnillo. In July 2020, the Company submitted paperwork to the Mexican authority to terminate the mineral licenses of its Three Properties (Vaquerias, Palo Alto and La Joya) and wrote off their remaining carrying values for the year ended December 31, 2020.

In the last quarter of 2022, a company expressed interest in acquiring the La Joya property. An application had been submitted to the Mexican mining authority to cancel the termination of the La Joya mineral license.

As at December 31, 2022, the Company did not hold any exploration and evaluation assets (2021 - \$nil).

LIQUIDITY, CAPITAL RESOURCES AND GOING CONCERN

As at December 31, 2022, the Company had cash of \$348,813 (2021 - \$367,000). In February 2022, the Company received the second annual advance royalty payment from Fresnillo of \$126,110 (US\$100,000) on the Naranjillo Property which Fresnillo acquired in February 2020. As at the report date of the MD&A, total royalty payments received were \$255,308 (US \$200,00).

The Company had working capital of \$333,828 as at December 31, 2022 (2021 - \$359,968). Plata manages liquidity risk and cash resources by maintaining a prudent budget with regular monitoring of the actual and budgeted cash flows. Based on its 2023 annual budget approved by the board of directors, the Company has evaluated that it currently has sufficient liquidity for the next twelve months from the cash flows generated from the sale proceeds and future advance royalty payments from the Naranjillo Property.

As at December 31, 2022, the Company had a deficit of \$11,850,492 (2021 - \$11,793,894). The Company has incurred ongoing loss and will continue to incur further losses in the course of operating its business. Three years of the COVID-19 pandemic have disrupted supply chains, impeded economic recovery and resulted in record high inflation. The rising interest rates have also added strains on the financial markets. There are uncertainties to whether financing would be available to the Company and on acceptable terms if the need for funding was to arise. These circumstances might cast significant doubt on the Company's ability to continue as a going concern.

Cash Flows

Under operating activities, for the year ended December 31, 2022, \$48,645 were used for the operations (2021 - \$57,556). Cash provisions of \$126,110 for 2022 and \$129,198 for 2021 were generated from Fresnillo's advance royalty payments on the Naranjillo Property.

There were no investing and financing activities for the year ended December 31, 2022 and 2021.

PLATA LATINA MINERALS CORPORATION

Management's Discussion and Analysis

For the Year ended December 31, 2022

OUTSTANDING SHARE DATA

As at February 21, 2023, the Company had 79,034,671 common shares issued and outstanding, and no stock options or warrants outstanding.

PROPOSED TRANSACTIONS

There are no undisclosed proposed transactions that will materially affect the Company.

OFF-BALANCE SHEET ARRANGEMENTS

The Company did not have off balance sheet arrangements as at the report date of this MD&A.

RELATED PARTY TRANSACTIONS

Compensation of key management personnel

Key management in 2022 includes the Company's directors and officers and previously in 2021, VP Exploration. Their compensation paid for the year ended December 31, 2022 and 2021 is as follows:

| | Nature of compensation | For the year ended December 31, | |
|-----------------------------|------------------------|---------------------------------|------------|
| | | 2022 \$ | 2021 \$ |
| Executive Chairman and CEO | Salaries and benefits | 23,572 | 22,135 |
| VP Exploration | Salaries and benefits | - | 4,301 |
| CFO and Corporate Secretary | Professional fees | 42,000 | 42,000 |
| Total | | 65,572 | 68,436 |

CRITICAL ACCOUNTING ESTIMATES

The preparation of the Financial Statements requires management to make certain judgments, estimates and assumptions that impact the Company's reported financial position. Judgment and estimates are based on historical experience and expectation of future events within reasonable circumstances. Actual outcomes could differ from these estimates. Revisions to these estimates are recognized in the period in which the estimates are revised and in future periods affected.

The significant judgment and estimate that will affect the Financial Statements is the following:

Going concern

Plata uses judgment in assessing its ability to continue as a going concern for the next twelve months. In considering the factors with respect to the prolonged pandemic and slow global economic recovery adversely affecting the Company's operational development, the Company concludes that there is a material uncertainty that might cast significant doubt about its ability to continue as a going concern.

PLATA LATINA MINERALS CORPORATION

Management's Discussion and Analysis

For the Year ended December 31, 2022

FINANCIAL INSTRUMENT AND RISK MANAGEMENT

Fair value

At December 31, 2022, the carrying values of cash, amounts receivable, accounts payable and accrued liabilities approximate their fair values due to the short-term maturity of these financial instruments.

The Company classifies its financial instruments into three levels of the fair value hierarchy according to the relative reliability of the inputs used to measure the fair values. The fair value hierarchy is as follows:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – quoted prices in inactive markets or inputs are observable directly or indirectly for the asset or liability; and

Level 3 – inputs that are unobservable as there are little or no market activities.

Risk management

The Company is exposed to financial instrument related risks arising from its normal operations. The Company manages and mitigates these risk exposures as follows:

Foreign currency risk

The Company operates in Canada, United States and Mexico. It maintains Mexican Peso and US Dollar bank accounts in Mexico and USA and is subject to currency gains or losses from these two currencies against the Canadian Dollar. The Company has no hedging against its foreign currency risk exposure.

At December 31, 2022 and 2021, the Company was exposed to currency risk through the following assets and liabilities denominated in US\$:

| | December 31, 2022 | | December 31, 2021 | |
|------|----------------------|---------|----------------------|---------|
| Cash | US\$ | 254,859 | US\$ | 282,722 |

At December 31, 2022 and 2021, the Company was exposed to currency risk through the following assets and liabilities denominated in Mexican Pesos ("MXN"):

| | December 31, 2022 | | December 31, 2021 | |
|--|----------------------|-------|----------------------|---------|
| Cash | MXN | 9,954 | MXN | 23,494 |
| Accounts payable and accrued liabilities | | (143) | | (4,034) |
| | MXN | 9,811 | MXN | 19,460 |

A 10% change of the Canadian dollar against the US dollar at December 31, 2022 would have increased or decreased net loss by \$33,235 (2021 – \$34,691) and would have increased or decreased the comprehensive loss by \$1,000 (2021 – \$1,000). A 10% change of the Canadian dollar against the MXN at December 31, 2022 would have increased or decreased the comprehensive loss by \$69 (2021 – \$146). This analysis assumes that all other variables, in particular interest rates, remain consistent.

Liquidity risk

Liquidity risk is the risk that the Company's financial assets are insufficient to meet its financial liabilities. The Company manages liquidity risk with budgets and cash forecasts to ensure there is sufficient cash to meet its obligations. At December 31, 2022, the Company had cash of \$348,813 (2021 - \$367,000) to settle current liabilities of \$20,039 (2021 - \$18,561).

In February 2020, the Company sold the Naranjillo property ("Naranjillo") to Fresnillo for \$663,950 (US \$500,000). Under the terms of the Naranjillo Option Agreement entered in February 2017, after the acquisition of Naranjillo, effective February 2021, Fresnillo is required to make an annual advance royalty payment of US \$100,000 until the earlier of (a) a maximum of US \$1,000,000 have been paid or (b) Naranjillo commences commercial mineral production. As of December 31, 2022, the Company has received two advance royalty payments of \$255,308 (US \$200,000).

PLATA LATINA MINERALS CORPORATION

Management's Discussion and Analysis

For the Year ended December 31, 2022

Three years of the COVID-19 pandemic have disrupted supply chains as well the soaring energy prices have pushed the global inflation to record high. Increased interest rates, a measure to slow down inflation, at the same time impeding economic recovery. Under this economic environment, the Company manages liquidity risk and its cash resources by setting a prudent budget and keeping expenditures within the budget. Based on the 2023 annual budget approved by the board of directors, the Company has evaluated that it currently has sufficient liquidity for the next twelve months from the cash flows generated from the sale proceed and future advance royalty payments on the Naranjillo property.

Commodity Price risk

The Company currently does not hold any mineral properties and is seeking new business transactions in the resource industry. The continuous COVID-19 variants, soaring energy prices, record high inflation have adversely impacted the global economy recovery, resulting in volatile fluctuations of commodity prices. This presents challenges to the Company's outlook in searching for business opportunities.

Credit risk

Credit risk arises from cash held with banks and financial institutions, as well as credit exposure on amounts receivable. Credit risk exposure on cash is limited through maintaining the Company's balances with high-credit quality financial institutions and assessing institutional exposure. The Company's maximum exposure to credit risk as at December 31, 2022 was the carrying value of its cash.

Capital Management

The Company's objectives when managing capital are to conserve cash, safeguard the Company's ability to continue as a going concern and maintain flexible capital which optimizes the costs of capital at an acceptable risk level.

In assessing the capital structure of the Company, management includes in its assessment the components of shareholders' equity and cash. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue new shares, issue new debt, acquire or dispose of assets or adjust the amount of cash. No changes were made in the objectives, policies or procedures for the year ended December 31, 2022.

RISKS AND UNCERTAINTIES

An investment in the Company's common shares is highly speculative and subject to a number of risks and uncertainties. Only those people who can bear the risk of the entire loss of their investment should participate. An investor should carefully consider the risks described below and the other information filed with the Canadian securities regulators before investing in the Company's common shares. The risks described below are not the only ones faced. Additional risks that the Company currently believes are immaterial may become important factors that affect the Company's business. If any of the following risks occur, or if other occur, the Company's business, operating results and financial condition could be seriously harmed, and investors may lose part or all of their investment.

The Company's cash resources and future royalty payments are uncertain.

While the Company is focused on conserving its cash resources, there is no guarantee that there will be sufficient cash funding for the Company to continue to operate or that Fresnillo will continue to pay the royalty payments which is providing the main funding for the Company's operations.

Uncertainty and challenges in identifying viable successful business opportunities.

The Company may not identify opportunities that are viable or that are successful in a competitive environment for opportunities. In addition, there is no assurance that even if a new transaction is identified that the Company's shareholders will approve the transaction or that the transaction itself will be successful in generating operating revenue.

PLATA LATINA MINERALS CORPORATION

Management's Discussion and Analysis

For the Year ended December 31, 2022

The Company's liquidity is uncertain impacting its continuance as a going concern.

The Company has not generated revenue from operations. As at December 31, 2022, the Company had an accumulated deficit of over \$11 million and will continue to incur further losses in the course of maintaining its business. To continue its business and move forward to new development, the Company may be required to raise additional capital by way of equity securities and/or debt financing. There is no assurance that the Company will be able to obtain the required funding or on acceptable terms. If the Company is unable to obtain the required capital, it could impact its ability to continue as a going concern.

Economic, political instability and global pandemic may affect the Company's operations.

The volatile global economic environment has created market uncertainty and volatility affecting the Company's operations. From 2008 to 2009 there was a negative trend with regard to the market for metal commodities and related products as a result of global economic uncertainty, reduced confidence in financial markets, bank failures and credit availability concerns. Similar instability in the market for metal commodities has been experienced since April 2013. In March 2020, the World Health Organization announced COVID-19, a global pandemic which continues to spread as variants to current year 2022. These macro-economic crises have negatively affected the mining and minerals sectors in general and the Company in the mineral resources sector. All these global economic conditions could impact the Company's ability to obtain equity or debt financing in the future on terms favorable to the Company or at all. In such an event, the Company's operations and sustainability could be adversely impacted.

The Company's mineral properties are in Mexico and may be subject to various levels of political, economic, legal and health risks.

Mexico has historically been subject to political instability, changes, and uncertainties, which have resulted in changes to existing governmental regulations affecting mineral exploration and mining activities. Mexico's status as a developing country may make it more difficult for Plata to do business or obtain any required financing.

The Company holds three mineral properties in Mexico which are in the termination process of their mineral licenses. In July 2020, the Company decided not to continue paying the necessary land taxes to keep the mineral rights. As at the date of this management report, the termination process is still ongoing, being stalled by the limited opening hours of government agencies impacted by the COVID-19.

The pandemic has added a severe health risk in Mexico as well. The Company's geological personnel and its supporting legal and administrative consultants in Mexico taking care of the Company's mineral properties could be at health risk with the continual emerged variants of the pandemic. This might result in disruption of the Company's operations.

Currency fluctuations may negatively affect the Company's operating costs.

The Company has two active subsidiaries – one in U.S. and the other in Mexico. The operating costs are denominated in U.S dollar and Mexican Peso, respectively. A depreciation of the Canadian dollar against the U.S. dollar and Mexican Peso could increase the Company's costs of operating businesses in those countries. The Company does not utilize hedging programs to mitigate the effect of currency fluctuation.
